HISTORY OF IIA NATIONAL AWARDS

The Indian Institute of Architects is a century old national establishment for architects in India. Unfolding over the past 100 years, it speaks in manifold aspects-of the struggles and influence of architectural education and practice from one solitary centre through out India. It is the only premier institution having fraternity fellowship of around 25000 Architects in India. The institute's objectives are to lay and build up the foundations of an architectural future fraught with the finest possibilities in the professional practice. The institute thrives to upgrade the architectural education in India, by conducting seminars, conferences, workshops and various competitions, via its well spread network of state levels chapters and city levels centers covering pan India.

Annual features of the Institute are the National Convention, Young Architects Festival, Institute's premier league Cricket match tournaments and the prestigious **IIA National Awards for Excellence in Architecture**.

The IIA National Awards for Excellence in Architecture were initiated in the year 1989. This is the only National level Award presented to the deserving architects by its own fraternity members' organization. The Awards are given in various categories.

This year's IIA National Awards for Excellence in Architecture are being conducted and hosted in co-ordination with TRIVANDRUM CENTRE of Kerala Chapter.

We, the IIA OFFICE BEARER'S, invite all the IIA Members to participate in the Awards and make it a grand success.
